How to play the game.There are two ways to play the game.A) A fun way. Go to the world map and with the help of all your friends make "goals" that you will have to reach together. You have time to do it, but don't count on completing every mission. This is a game in progress that is intended to be played during the day.B) A hard way. Each time you find a new person that will help you, you have to find a place to show them that they can help you too. In this way you will reach "goals" that need to be set up. These goals are for every day and you must complete the rest as fast as you can to win.WARNING: There is a secret route in the game which is absolutely secret and you will

have to play in the easy way to pass it. If you do it on hard way, there will be a lot of difficulties, we really do not recommend it.ABOUT HOW MUCH TIME: This is really a game of progress. The length of the game is in a constant change. If you play well, you will be able to win within a couple of hours. It is important that you start and complete your missions. Your own help will increase your time.ABOUT THE GAME MODE: It is a competitive game mode that will be played in missions. In the first mission you will start without any information about how to play the game and we will teach you to play. In the second mission you will have information and you will start from here. You can play solo or with 4 friends.HINT: Don't forget that the music will help you in the games. Please use this game only for those reasons mentioned above. And if you find other kinds of uses please contact us. Régis Lorrain: The game is hard to beat, you have to go with the flow of the game. It is difficult to control the group, and you have to be aware of everything. Moulène Bissette: Not much can be said, it's a game of

progression and you can't control all the aspects. You must decide to commit yourself and work with the game, you will be going against many of your friends and meet many, who will use everything to stop you from reaching the objectives. It will be a game of teamwork and intelligence. Alexandre Bonnant: I do not want to talk about the game, we
