After downloading and installing, run Age of Empires III - Complete Collection (ENGRUS) [Repack] R.G.. The new game picks up where Age of Empires II: Age of Kings left off, placing gamers in the position of a select few members of the former Granada Empire in the middle of a civil war that threatens to break the whole continent apart. As the struggle threatens to erode your society, you will need to pull out all the stops to turn the tides in your favor. the text that you are using some kind of tool to change the extension of the files. That would be a no no. A good program to play game is windows media player which you can find here: [wmp10.codeplex.com](http://wmp10.codeplex.com) If I remember correctly you still have to pay for some of the games, I think it might be due to digital rights management. Q: Why does the MKMapView marker want to drop? I'm totally new to mapkit development. In my application I have a UITableView with one cell (which contains a UIScrollView with an MKMapView in it, and some other UIViews in it). The problem I have is that when I scroll down (or if I use the keyboard to scroll down) I can see the MKMapView's markers disappearing for a split second. Then the markers

come back. If I don't scroll down, the markers don't come back. I'm sure it's something simple, but I can't see what it is! Any help gratefully received. Thanks, Mark A: I have been experiencing this issue. I think this is an iOS bug. From Apple documentation The map view should not update until it has been located in a visible region of the screen (when the map view's visible region property is set). Setting the map view's region does not cause the delegate's `mapView:viewForAnnotation:` message to be called. Q: Longest sequence of consecutive numbers? I'd like to find the longest sequence of consecutive numbers in a list. For example `e79caf774b`
