This Version Of the famous game was released exactly 5 years. It's the only real time strategy game that has ever been real time. With X-COM Enemy Unknown you don't wait for the action to start. Instead, the action starts when you press "Fire" and you can spend your money and build your defenses as you go. You don't even start off with a full team. You can choose to build a team of up to six individual members by choosing from a variety of soldier and civilian roles. There are 12 years worth of variations in the game's backstory and enemies. You can play as the human resistance or the aliens and use a variety of alien weapons and devices to battle the invaders. Create your own units and customize their strengths and weaknesses. Do you have the reflexes to counter the Furies' deadly robots? Can you charge the glass of a tank with your grenade launcher? X-COM hits a lot of the major gaming hits of the last decade and makes them new again. More than a flight of fancy, it is a breath of fresh air in the industry and a welcome release.
